Able Baker is affordable software to assist in the running of the small-to-medium scale bakery. Created to meet the specific needs of the baking business, it has evolved through regular use since 2001.

A free 90-day trial can be downloaded from www.ablebaker.biz.

Daily tasks such as maintaining customer orders, calculating production sheets, generating product/customer arrays, delivery notes, product labels, and delivery rounds are all catered for.

For simplicity and ease of use, most jobs within Able Baker are started from the central “Task Selector” panel.

Invoices can be produced on a daily, weekly and monthly basis. Multiple and customised price-lists are supported, as are delivery rates and tax (VAT) when applicable. Percentage price changes can be applied to selected products at the click of a button.

The program is supplied with a detailed help file and an easy beginner's tutorial.
